Golf Tournament Update

Once again, we will be having our Annual Golf Tournament at Peninsula Lakes. The date will be June 9th.

At present, I am at 102 golfers. As in previous years, I get a number of people who have simply forgot to reply or are hesitant to commit until they line up their foursome. **This newsletter is the LAST OPPORTUNITY to sign up!** Please send your completed registration form (attached to this Airways bulletin) to tigerdave60@yahoo.ca. I can handle up to 120 golfers and will still accept single golfers, twosomes or foursomes. This has never been a late night event – in most years, we are finished supper and handing out prizes by 7:30 pm.

I will be sending the "Contact Name" listed on the entry form a more in-depth review of the days events. It remains, as in previous years, a "Best Ball" tournament with a 1:00 pm shotgun start.

Directions are included in this Airways bulletin.

If you have any questions, please contact me.

ASHRAE Research

ASHRAE would like to thank you again for the support you've shown *ASHRAE Research* over the past years. We sincerely hope that you will renew your support in this program so ASHRAE can continue its research in the HVAC&R industry.

Whether you specialize in IAQ, green building, tools and applications or refrigeration, ASHRAE has research projects focused on your field of expertise and the specific topics that affect your business most. Not only does your generous contribution insure the future growth of your industry, it also influences the health and well being of all of us today and for future generations. If there is a specific research topic you're interested in, please contact Patricia Adelman, Research Promotion Manager, and she'll be happy to give you specific information. Her phone number is 404/636-8400, ext. 1114 or email padelmann@ashrae.org

ASHRAE Research benefits the HVAC&R industry in many ways. For example, results from the research program help shape and revise the ASHRAE Handbook, used by professionals like yourself in your

own office and around the world. These research project results are incorporated into ASHRAE standards, ensuring more efficient buildings, business practices and a better quality of life for people from New York to Hong Kong. And, to make this data readily able to be found and used, the results are available in multiple formats to best suit the needs of ASHRAE Members and HVAC&R companies.

You may also send your investment directly to the local ASHRAE Hamilton chapter to be forwarded to Atlanta. Please visit ASHRAE's website at www.ashrae.org for more information on ASHRAE's research and education programs.

You may also make your investment online at ASHRAE's website. Click the link on the left side of the home page labeled "Contribute Online".

Thank you in advance for your continued support of these vital research projects.

Sincerely

Research Promotion Chair
